

Juan Gustavo Fernández Jarrín

San Miguel de Conocoto, Quito, Ecuador • juangfdez3@gmail.com • +593 987 425 426 • [LinkedIn](#) • [GitHub](#)

Professional Profile

Dual-degree student in Information Systems Engineering (UIDE) and Information Technology (Arizona State University), with a 9.5/10 GPA and hands-on experience in software development, DevOps, cybersecurity, and data analysis, gained across corporate, academic, and international sports organization settings. Recognized for academic excellence, leadership ability, and effective collaboration in multidisciplinary teams. Seeking an internship or entry-level role where I can contribute technical versatility, commitment, and a fast learning curve.

Languages

- **Spanish:** Native
- **English (B2):** Cambridge FCE, Duolingo English Test (2026)
- **Portuguese:** Basic – Udemy (in progress)
- **Ecuadorian Sign Language:** Basic – Ministry of Labor (2024)

Education

Universidad Internacional del Ecuador (UIDE)

B.S. in Information Systems Engineering

GPA: **9.5/10** (Academic Merit Scholarship) • Concentration in Software Development, Database Management, and IT Infrastructure

Relevant coursework: IT Technical Support, Network Simulation, Software Development, Virtual Infrastructures, Artificial Intelligence, Cloud Computing.

Leadership & honors: Treasurer, Computer Science Students Association (2025) • President, University AI Club (2026) • 2nd Place, UIDE Innovation Week • Member, UIDE Buddy Program for Exchange Students.

Arizona State University (ASU)

Information Technology, B.S. (Dual Degree)

GPA: **96/100**

Relevant coursework: Internationalization, Academic English, Sustainability.

La Salle Conocoto

International Baccalaureate – IB Diploma (Geneva, Switzerland), score 24

Professional Experience

Diners Club del Ecuador

Technology Intern – DevOps and Development

- Supported the DevOps team in managing and monitoring continuous integration and deployment (CI/CD) pipelines, contributing to the stability of release processes.
- Developed backend and frontend features for internal applications, and identified and fixed code vulnerabilities stemming from outdated dependencies.
- Produced technical documentation of processes, architectures, and internal workflows, and managed access permissions and roles across development and production environments.
- Used Kiro AI and Amazon Web Services as part of the daily workflow.

Ecuadorian Federation of Sports for the Deaf (FEDEPDAL)

Electronic Timing and Photo-Finish Coordinator

- Officially appointed by FEDEPDAL as electronic timing and photo-finish coordinator for the 6th Pan American Games for the Deaf (August 20–27, 2026).
- Led a team of volunteers in the logistical and operational management of the international sporting event.
- Coordinated technical support and oversaw the correct operation of timing systems throughout the competitions, ensuring accurate real-time results.

Universidad Internacional del Ecuador (UIDE)

Cybersecurity Researcher

- Researched, developed, and implemented cybersecurity technologies and methodologies for the Red Ciberlac – UIDE.
- Configured and integrated sandbox testing environments for vulnerability assessment.

JarFer (Training Operator)

Web Developer and Technical Support

- Implemented and maintained corporate websites on WordPress, including domain and hosting management.

- Provided comprehensive technical support to the company and its clients, and carried out preventive and corrective maintenance of hardware and software.

Universidad Internacional del Ecuador (UIDE)

Data Analyst – Marketing Department

Quito, Ecuador

August – October 2025

- Conducted data analysis to support strategic decision-making for the marketing department.
- Managed SQL databases and generated advanced Excel reports to track sales performance.
- Operated the Salesforce CRM for customer segmentation and analysis, and developed HTML templates for campaigns.

AbydosCORP Cía. Ltda.

Software Developer

Quito, Ecuador

May – August 2025

- Developed software modules according to client functional and technical requirements.
- Wrote end-user technical documentation (manuals and installation guides) and produced video tutorials to facilitate adoption of implemented solutions.

Personal & Freelance Projects

Web Application for PANADES

2026 – In development

Freelance Full Stack Developer. Designed and developed a web platform to improve the logistics of the sports organization, featuring official ranking, athlete management, and coach administration modules. Built with Kiro AI and AWS.

Facial Recognition Camera System for Security and Access Control

In development

2nd Place, UIDE Innovation Week. Project focused on access control through facial recognition, currently in the development phase prior to production.

AJI-GO – University Delivery App

Pending production rollout

Delivery application for the university environment, deployed on AWS with Kiro AI assistance.

Splunk and SIEM Environment Integration

Security Information and Event Management (SIEM) project, applied in sandbox testing for ethical hacking.

Technical Skills

Languages: Python (Python Essentials Cert. – Cisco Networking Academy), C++ (Udemy), C# (Udemy), Go, C.

Web Development: HTML & CSS (Cisco Networking Academy), JavaScript (Fundación Telefónica – Spain).

DevOps & Cloud: Docker, CI/CD, AWS (High Availability, Cloud Computing, Networking, VPCs, Cloud Security, AI-Assisted Deployment – Simulearn).

Databases: SQL Server – query management and optimization.

Cybersecurity: Splunk / SIEM, Kali Linux, ethical hacking.

Artificial Intelligence: AI and Machine Learning Fundamentals (IBM SkillsBuild – Cisco Networking Academy), Kiro AI / Kiro CLI (Cisco Networking Academy), Claude Code, Antigravity.

Networking & Systems: Cisco Packet Tracer, Windows (advanced configuration), Linux (Debian, Red Hat).

Tools: Git, GitHub, Bash Scripting, WordPress.

Project Management: Enterprise Architecture (Cisco Networking Academy), Effective Time Management (Universidad Internacional de Córdoba).

Seminars, Workshops & Conferences

Cybersecurity Summer School, Red Ciberlac – Mexico

August 2025

Digital forensics and information security best practices.

CEDIA – Ecuadorian Corporation for the Development of Research and Academia

March 2025

Member of the event's protocol and logistics team (UIDE, Ecuador).

Harnessing Data for Scientific Discovery, EPIC IV – UIDE

July 2024

Applied Python for data science research with AI. International event conducted in English.
